How about this one:  
<http://de.wikipedia.org/wiki/NATO-Rangcode>

Or with pretty pictures in English:  
[http://en.wikipedia.org/wiki/Ranks\\_and\\_insignia\\_of\\_NATO](http://en.wikipedia.org/wiki/Ranks_and_insignia_of_NATO)  
Gotta dig through each service: Army, Air Force, Navy and through each type (Officer/Enlisted)

Keep in mind that the OR or OF designation will not mean anything to US Forces members.  
That means you might want to have one drop-down containing: E, O, OR, OF, GS, NF, NA,.....  
And another drop-down with numbers from 0 to 15

[http://www.defensetravel.dod.mil/Docs/Training/DTA\\_App\\_M.pdf](http://www.defensetravel.dod.mil/Docs/Training/DTA_App_M.pdf)  
Page 4 to page 8 contain the letter codes for civilians in the first column (pay plan).  
Most common are GS, YA, YC, NA, WG, ES,

Do you happen to have a good reference for all of the NATO Rank designations that I should add to the "Rank" drop down box on the v2 customer screens?
