unfile

Returned = (Location = "Office Code")
• Radio Button for Print Dependent on Form
• Tax Form > choose dependent
Lost implies
because Filed really means closed

$$\text{power}(2,1) = 2 \text{ } 6$$
$$(2,2) = 4$$
$$26/6 = 1$$

~~put pending tax forms out to DB??~~

☐ Automatic purge job + Delete on close

~~New Flag?? InitPrint 2/15 ABW~~

~~Yeah go for it, just a count~~

~~Print count = 0 ???~~

new concept - we could imply the off status but we wouldn't know which office
V2 Location
Returned = Closed
Filed = Printed but cancelled unused
Voided = implies Filed
Incomplete - counts against 10 count
Indicates attempted return
could result in filed even
headed back to customer
we should probably scan it at that time
V1
* turns off returned
so VA tracks
the count
* Adds to the comments

$$\phi \text{ xor } 0 \text{ xor } 1 = 1$$

$$\text{xor } 1 \text{ xor } 1 = 0$$

~~"Outstanding"~~
~~"open"~~

~~* Highlight Incomplete @ office in forms grid~~

~~100T"~~
~~Full refreshed~~
~~State~~

10 count
= not filed
not voided
not lost.
loc = CUS

~~* Sponsor Tab Status Icon Area probably above the customer diary~~

Returning Means

* Incomplete means attempted File but failed.
* also hitting return clear form so they get a second shot @ new forms right when they were best

* Return Tax Form Resets Incomplete Flag
* Need to show "Returned not Filed count"
* the sponsor tab comes up
* Highlight in flashing Red
* if > X (ask Ref)
* make this a control control value
